EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In view of the patentability of the pending claims, the examiner of record hereby withdraws the "Restriction/Election of Species Requirement" presented on 07/13/2004. Accordingly, claims 34-52 are allowable over the prior art of record.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest, *inter alia*, the steps of implanting a composite catheter into a subject, the composite catheter comprising an outer member comprising a proximal end, a distal end, and an outer member body defining an outer member lumen; and an inner member comprising a proximal end, a distal end, and an inner member body defining an inner member lumen, wherein the inner is interposed within the outer member lumen so as to define an interstitial space between the inner member and the outer member; wherein the inner member body comprises a substantially impermeable material, and wherein the inner member lumen defines a drug delivery conduit suitable for delivery of a drug from the inner member proximal end to the inner member distal end, wherein the implanting provides a drug delivery pathway from a proximal end of the catheter, through the inner member lumen to a distal end of

the catheter, and out a delivery outlet positioned at a treatment site in a subject; and introducing a drug into the inner lumen of the catheter wherein the drug is delivered to the treatment site in the subject.
